

## Special Issue

# Advances in the Diagnosis and Treatment of Hepatogastroenterology

### Message from the Guest Editor

Advances in the diagnosis and treatment of hepatogastrointestinal diseases have been remarkable in recent years. Imaging in the diagnosis of gastrointestinal diseases, for example, has seen advances such as chromoendoscopy, upper and lower gastrointestinal endoscopy with artificial intelligence (AI) apply, capsule endoscopy, deep enteroscopy, and endoscopic ultrasound. Imaging in the diagnosis of hepatology has also seen significant advances, including color ultrasound with contrast, abdominal multidetector computed tomography, and advanced magnetic resonance imaging. Surgery continues to play a major role in the treatment of hepatogastrointestinal disease, especially in cases of advanced malignancy. The introduction of multimodal therapy has dramatically improved the chance of survival of advanced malignancy. It is my pleasure to invite authors to submit your contributions to this Special Issue. This Special Issue will focus on the diagnosis and treatment of hepatogastrointestinal diseases. Invited topics may include:

- New diagnostic imaging and therapeutic capabilities in hepatic diseases;
- New diagnostic imaging and therapeutic capabilities in gastroenterology diseases.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
