

Special Issue

Clinical Diagnosis and Management in Urology

Message from the Guest Editor

We are pleased to invite you to contribute to an upcoming Special Issue titled “Clinical Diagnosis and Management in Urology”. In recent years, we have seen rapid progress in the field of urology. Improvements in diagnostics and surgical methods have led to better and tailored treatments for patients. Improved Psma Pet-Tc for prostate cancer and new biomarkers for screening and early diagnosis in bladder cancer have all contributed to better planning and helped to improve surgical techniques and outcomes. In addition, advancements in urology, such as minimally invasive surgery, have greatly improved outcomes, paving the way for early intervention and less invasive treatments. This Special Issue will enhance our knowledge regarding the latest advancements in clinical diagnosis and management in urology. Original research articles, reviews, and other paper types are welcome. Research areas may include new surgically techniques, innovative diagnostical tools, and clinical management strategies. We look forward to receiving your valuable submissions.

Guest Editor

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
