

## Special Issue

# Diagnosis and Management of Liver Diseases and Inflammatory Bowel Diseases

### Message from the Guest Editors

The global burden of liver and inflammatory bowel diseases is on the rise. Although complex pathophysiological mechanisms of various liver disorders as well as inflammatory bowel disease have been elucidated, morbidity is still high. Although breakthroughs in diagnosing metabolic-dysfunction-associated steatosis liver disease, primary sclerosing cholangitis, primary biliary cholangitis, hepatitis B and C, and autoimmune hepatitis have been made in recent decades, the adequate timing of diagnosis, and hence treatment, still remains a clinical challenge. Taking into consideration that liver disease in some cases may accompany inflammatory bowel disease, it is of great importance to diagnose both conditions properly so that the management of these diseases can commence in a timely and adequate manner. In this Special Issue, new, original research articles and reviews regarding the diagnosis and management of liver and inflammatory bowel diseases, as well as complications and special conditions related to these diseases, will be considered for publication.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

---

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
