Trends and Controversies in Global Gynecologic Oncology: Diagnosis and Management

Message from the Guest Editors

This Special Issue focuses on the trends and controversies in global gynecologic oncology (specifically the areas of diagnosis and management), addressing the current approaches in LMIC compared to HIC and innovative interventions. Topics of interest for this Special Issue include (but are not limited to) the following:

- Cervical cancer in Eastern Europe (diagnosis and management);
- Gynaecological oncology: cancer resources in diagnosis and cost evaluation of main cancers in females in different settings;
- Review of global gynaecologic oncology;
- Technology and innovations in diagnosis in gynaecologic oncology in LMIC;
- Trends in gynaecology oncology research;
- Cervical cancer in Africa (diagnosis and management);
- Cervical cancer in Asia (diagnosis and management).

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
