

## Special Issue

# Molecular Mechanisms in Ophthalmology

### Message from the Guest Editor

The aim of the “Molecular Mechanisms in Ophthalmology” Special Issue is to delve into the intricate cellular and molecular processes underlying various ocular conditions to enhance our understanding of the pathophysiology and treatment options in ophthalmology. This Special Issue provides a platform for researchers to explore the latest advancements in molecular biology, genetics, and biochemistry that relate to eye disorders and visual health. By focusing on the molecular intricacies within the field of ophthalmology, we aim to bridge the gap between basic science and clinical application, fostering innovative approaches for the diagnosis and management of ocular diseases.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
