

## Special Issue

# Translational Research Advances in the Diagnosis of Hematological Diseases

### Message from the Guest Editor

Recent innovations in translational research have transformed how we diagnose and understand hematologic diseases. This Special Issue focuses on the latest diagnostic advances that bridge laboratory discoveries with clinical applications in hematopathology. We invite submissions exploring innovative approaches in the following topics:

- Molecular and genomic diagnostics;
- Artificial intelligence and digital pathology;
- Novel biomarker validation and implementation;
- Hematopathology classification updates and applications;
- Laboratory standardization and quality metrics;
- Clinical implementation of research discoveries;
- Emerging diagnostic platforms and technologies.

We welcome original research articles, comprehensive reviews, and technical reports. Submissions highlighting the practical impact of research findings in clinical settings are particularly encouraged. The goal is to provide a comprehensive view of current innovations while pointing toward future developments in hematologic disease diagnostics. We look forward to your contributions advancing this rapidly evolving field.

---

### Guest Editor

Prof. Dr. Robert S. Ohgami

Department of Pathology and ARUP Laboratories, University of Utah,  
Salt Lake City, UT 84112, USA

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
