New Advances in Retinal Imaging

Message from the Guest Editors

Current advancements in the field of ophthalmology have opened a variety of possibilities of broadening our knowledge of the ultra-structural dimension of ophthalmic diseases. By doing so, progress and advancements in diagnosis have been achieved in the last few years, and knowledge in this field is always in progress. From early diagnosis to biomarker detection, today, retinal imaging has changed our ability to non-invasively assess ocular structures, giving interesting insights into ocular pathophysiology. This Special Issue aims to investigate the range of applications of ophthalmic imaging in retinal diseases, exploring the latest advancements and future directions in this field. We are pleased to invite you to contribute original research articles, reviews, and other types of papers to the Special Issue “New Advances in Retinal Imaging”.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
