Imaging Diagnosis in Abdomen, 2nd Edition

Message from the Guest Editors

After a successful first edition of the Special Issue “Imaging Diagnosis in Abdomen” (https://www.mdpi.com/journal/diagnostics/special_issues/Abdomen_Imaging), with a total of eleven papers—including eight review articles—dealing with various aspects of imaging in abdominal disease, we are pleased to announce a second edition. Various imaging modalities play important roles in evaluating abdominal abnormalities, with each technique having specific strengths and weaknesses. As the title suggests, our Special Issue aims to address the most recent advancements and new frontiers in imaging diagnosis in the abdomen. Novel diagnostic approaches are now available for the abdomen, although they are not always routinely used in clinical practice. However, their respective roles in the diagnostic management of abdominal diseases are still debated, even in dedicated multidisciplinary teams. In conclusion, this Special Issue aims to present a collection of review articles and original contributions on current progress in abdominal imaging with the aim of improving the quality of patient care.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
