

Special Issue

The Advanced Role of Artificial Intelligence in Personalized Disease Classification and Evaluation

Message from the Guest Editors

the objective of this Special Issue is to deliver the most recent AI research in the domain of medical image processing and analysis. Submissions about novel AI models for medical image analysis are welcome. To address the variations in image spatial-temporal resolution as well as the diversity of biophysical-biochemical mechanisms, contributions addressing other aspects of medical image processing (including, but not limited to, image enhancement, reconstruction/restoration/registration of images, segmentation, feature extraction/selection and classification are also welcomed. We invite researchers to submit original research articles as well as review articles that discuss the difficulties encountered by artificial intelligence techniques in the analysis of medical images.

Guest Editors

Dr. Javeria Amin

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
