Special Issue

Advances in Diagnostic and Operative Hysteroscopy

Message from the Guest Editor

This Special Issue of *Diagnostics*, an open access journal, on the topic of "Advances in Diagnostic and Operative Hysteroscopy" will publish a broad range of original papers covering the full spectrum of the hysteroscopic technique. Hysteroscopy is a valuable tool in modern minimally invasive gynecologic surgery: as such, the journal invites high-quality submissions on current research and review articles, shedding light on controversies and on clinical practice. In addition to research and reviews, it also welcomes meta-analyses, practice guidelines, and more. Topics of interest include general gynecology, infertility, pediatric and adolescent gynecology, mullerian anomalies, gynecologic oncology, pelvic medicine, pros and cons of various hysteroscopic techniques, and more. The issue focuses on the diagnosis, prediction, prevention, and treatment of various gynecological disorders. As our audience is global, the aim of this issue is to play a major role in education in hysteroscopy, throughout Europe and around the world.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
