Frontier Exploration of Multimodal Imaging in Cardiac Rheumatic and Immune Diseases

Message from the Guest Editor

Currently, there has been great progress in the field of both Rheumatology and Immunology that has improved symptoms and survival of patients suffering from these diseases. However, these patients still die earlier than the rest of the population, and cardiovascular disease remains a major cause of death. Cardiovascular Imaging plays a leading role in both the diagnosis and treatment follow-up of cardiovascular involvement in these patients. Therefore, the “in-depth” knowledge of the contribution of each imaging modality is of paramount importance for the prevention, diagnosis, and follow-up of these patients. In this context and taking into consideration that diminishing the cardiovascular mortality is the “Holy Grail” of our efforts, we invite you to submit your research, review, and cases in this issue of “Diagnostics”, dedicated to Cardiovascular Imaging in Rheumatology–Immunology. We strongly believe that your contribution will change the ominous prognosis of Cardiovascular disease in Rheumatology–Immunology. We are looking forward to receiving your manuscripts.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
