

## Special Issue

# Advanced Applications of Magnetic Resonance Spectroscopy (MRS)

### Message from the Guest Editor

In vivo magnetic resonance spectroscopy (MRS) is an imaging modality that can be used to non-invasively provide biochemical and metabolic information. In spite of a history of about 30 years of in vivo application of MRS, it has not been established as a widespread clinical tool. This Special Issue will describe already existing clinical and research applications of in vivo MRS, in particular those where MRS can aid with clinical diagnosis and decision-making. Topics for such applications include psychiatric disorders and neurodegenerative diseases, tumor metabolism and cancer, traumatic brain injury, metabolic diseases, and pediatric disorders. Finally, methodological developments that could promote the application of MRS should be emphasized.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
