Adverse Reactions to Drugs: Diagnosis and Management

Message from the Guest Editor

This Special Issue focuses on the diagnosis and management of adverse drug reactions (ADRs), a critical aspect of patient safety in healthcare. ADRs, ranging from mild to life-threatening, pose significant challenges to clinicians in terms of recognition, evaluation, and treatment. The articles in this Special Issue delve into the latest diagnostic techniques, including the use of biomarkers, clinical algorithms, and pharmacogenomic testing, to enhance the detection of ADRs. The management strategies discussed emphasize the importance of a multidisciplinary approach involving pharmacists, physicians, and nurses to ensure timely intervention and prevention of ADRs. Furthermore, this Special Issue explores the role of education and training in enhancing the awareness and skills of healthcare professionals in managing ADRs, ultimately leading to improved patient outcomes and safety.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
