Prostate Cancer: Challenges in Diagnosis and Management

Message from the Guest Editors

This Special Issue entitled "Prostate Cancer: Challenges in Diagnosis and Management", seeks to address the pressing concerns and hurdles encountered in the current diagnostic procedures and management strategies for prostate cancer. This Issue aims to be a beacon of knowledge, shedding light on the intricacies of prostate cancer, which is one of the most common cancers affecting men globally. The focus is on the advancements in diagnostic tools, including imaging techniques and biomarker discovery, that could potentially revolutionize early detection and intervention strategies. This Special Issue encourages submissions that delve deeper into diagnosing prostate cancer and explore the potential of personalized medicine to improve diagnostic outcomes and novel management approaches. We intend to foster a multidisciplinary dialogue by welcoming contributions from various fields including molecular oncology and clinical trials. The hope is that by fostering collaboration and knowledge exchange, this Special Issue can accelerate the pace of research and development in the fight against prostate cancer, ultimately paving the way for more effective and targeted interventions.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
