Biomarkers in Psychiatry

Message from the Guest Editor

There is currently no standard biomarker in psychiatric disorders that complements diagnosis or predicts treatment response and prognosis. The conventional “one-drug-fits-all” approach involving trial and error inevitably delays finding the appropriate treatment and increases healthcare costs. Advances in neuroscience and technology have facilitated our understanding of psychiatric disorders as complex biological disorders with intricate interactions with the environment and expanded our search for viable biomarkers. Our hope is that our colleagues can share with the community their research in the areas of omics (genomics, proteomics, metabolomics etc.), neuroimaging, and many other modalities of measurement, which can potentially transform the practice of Psychiatry.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
