

## Special Issue

# State of the Art of Bladder Cancer: From Diagnosis to Therapy

### Message from the Guest Editor

Urinary bladder cancer is a common disease, mostly found in advanced age people. Histology plays the main role in the diagnosis, useful not only to confirm the malignancy, but also to assess invasiveness and the depth of invasion, if any. In addition to quantification of the disease, histology can also provide information about quality through the evaluation of grade of differentiation and the identification of a special type of bladder cancer.

This Special Issue is aimed at gathering contributions and novelties with regard to all features covering this topic, starting from both clinico-instrumental and pathological diagnosis, to therapy, encompassing both established and new treatment modalities, including recent immunotherapy.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
