

Special Issue

Inflammatory and Infectious Bone and Joint Diseases: Diagnosis and Management

Message from the Guest Editor

This Special Issue shall focus on novel aspects of diagnostics and the management of inflammatory bone and joint diseases and welcomes both original research articles as well as reviews and meta-analyses. Work with a clinical link is preferred, but we also encourage authors to submit basic research papers concerned with immunology and inflammation, as long as it is related to bone, cartilage and synovia, or their precursor cells. Translational research papers concerning novel diagnostic methods, such as biomarkers, PCR, MALDI, proteomics, sequencing and cell differentiation are highly welcome, both with data from preclinical trials or confirmatory results of approved diagnostic products.

Guest Editor

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
