

## Special Issue

# Advances in the Diagnosis and Management of Morbid Obesity

### Message from the Guest Editor

Morbid obesity, defined by a body mass index (BMI)  $\geq 40$  kg/m<sup>2</sup> or  $\geq 35$  kg/m<sup>2</sup> with obesity-related comorbidities, presents complex diagnostic challenges that demand a multidisciplinary approach. This Special Issue explores cutting-edge strategies for accurate assessment, emphasizing the integration of anthropometric, metabolic, imaging, and biochemical markers to refine phenotyping and risk stratification. Key themes include the limitations of BMI, the role of visceral adiposity imaging, genetic and epigenetic profiling, and the impact of comorbidities such as metabolic syndrome and obstructive sleep apnea. By bridging gaps between clinical evaluation and advanced diagnostics, this collection aims to enhance early identification and personalized management frameworks for high-risk populations.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
