Advances in the Diagnosis of Eye Diseases

Message from the Guest Editor

Eye diseases, such as cataracts, glaucoma, age-related macular degeneration, and diabetic retinopathy, continue to represent leading causes of vision impairment and blindness worldwide. Timely and accurate diagnosis is crucial in providing appropriate treatment and preventing irreversible vision loss. Hence, this Special Issue will highlight cutting-edge research, innovative technologies, and novel approaches that are improving the early detection, diagnosis, and monitoring of eye diseases. We invite researchers to submit original research findings, review articles, and case studies that demonstrate advancements in diagnostic tools, imaging techniques, biomarkers, artificial intelligence applications, and other innovative approaches to the diagnosis of eye diseases. Overall, the goal of this Special Issue is to provide a platform for sharing and disseminating the latest developments in the diagnosis of eye diseases, ultimately leading to improved patient outcomes and better management of eye health. We hope that this Special Issue will inspire further research and innovation in this critical area of ophthalmology.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
