Innovation in Cardiac CT

Message from the Guest Editor

Over the last few decades, cardiovascular imaging has become an emerging technology in the field of medical imaging and its significant impact in modern cardiology is widely recognized. Diagnosis, prognosis, and management of most coronary diseases are often based on cardiac CT scans. These techniques offer a substantial contribution to a more comprehensive evaluation of the disease, and their diagnostic performance could be improved if integrated with clinical data. Furthermore, CCTA also shows promising results with regard to tissue characterization. It is a pleasure for us to invite you to contribute to this Special Issue entitled *Innovation in Cardiac CT* with original contributions and review articles focused on the most recent and relevant advances in the field, including the latest trends and future developments. We are looking forward to receiving your submission.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
