### State of the Art in Cardiac Diseases: Diagnostics of Tomorrow

### Message from the Guest Editors

*Diagnostics* would like to launch a Special Issue running this year, focused on the future perspectives of diagnosis (State of the Art in Cardiac Diseases: Diagnostics of Tomorrow).

Diagnosis of cardiac diseases is a great challenge for physicians and scientists. There are many controversial aspects in this area regarding the patho-physiology, patients handling, and postmortem diagnostic tools. Young researchers are welcome to present their interesting achievements. Clinicians, medical examiners and forensic pathologists are encouraged to share their experience and insights into their clinical and forensic practice; all are invited to present new cutting-edge evidence in the diagnosis of highly interesting pathologies, such as atrial fibrillation or sudden death. We encourage you to share the usefulness of new diagnostic methods, including new technological devices or molecular and genetic applications. Moreover, reports of multidisciplinary teams of physicians and other health providers in new diagnostic approaches will be appreciated.

### **Guest Editors**

#### Dr. Diana Hernandez-Romero

Department of Legal and Forensic Medicine, Biomedical Research Institute (IMIB), Regional Campus of International Excellence "Campus Mare Nostrum", Faculty of Medicine, University of Murcia, Murcia, Spain

#### Prof. Duarte Nuno Vieira

Institute of Legal Medicine and Institute of Bioethics, Coimbra University Centre for Humanitarian and Human Rights Forensic Research and Training, Coimbra, Portugal

### Deadline for manuscript submissions

closed (31 March 2022)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

#### Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### **Author Benefits**

### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
