

Special Issue

Innovations in Tuberculosis Diagnostics

Message from the Guest Editor

Despite decades of progress, tuberculosis remains a formidable global health challenge, necessitating a shift from traditional methods to next-generation diagnostic frameworks. This Issue serves as a dedicated platform for showcasing transformative technologies and integrated diagnostic ecosystems that aim to bridge the gap between laboratory discovery and point-of-care application. Our objective is to create a collection of high-impact research that redefines the standards of TB detection. By emphasizing multi-omics approaches, digital integration, and ultra-sensitive detection platforms, this Special Issue aligns with the global mission to end TB through early and accurate intervention. We invite researchers and innovators to submit work that pushes the boundaries of current clinical practice.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
