

## Special Issue

# Respiratory Tract Infections: Pathogenesis, Diagnosis and Management

### Message from the Guest Editor

Acute respiratory infections remain a major cause of death globally, despite the use of interventions such as antimicrobial drugs and vaccinations against pneumonia-causing pathogens. Mild respiratory infections are also responsible for a substantial burden on healthcare systems. This high burden lends support to initiatives to accelerate the development of specific preventative interventions such as vaccination and expanded use of vaccinations (if available). The aim of this Special Issue is to gather and showcase the most recent developments in the areas of respiratory tract infections in the form of original research articles and reviews. Research areas may include (but are not limited) to the following: pathogenesis, diagnosis, management, burden of disease, risk groups, impact and effectiveness of interventions, epidemiology and clinical development of interventions.

### Guest Editor

Dr. Orienka Hellferscee

1. Centre for Emerging Zoonotic and Parasitic Diseases, National Institute for Communicable Diseases, Johannesburg, South Africa
2. School of Pathology, Faculty of Health Sciences, University of the Witwatersrand, Johannesburg, South Africa

### Deadline for manuscript submissions

closed (21 July 2023)

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Andreas Kjaer  
Department of Clinical Physiology, Nuclear Medicine & PET National  
University Hospital, Rigshospitalet, University of Copenhagen,  
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
