Diagnosis and Treatment of Pediatric Metabolic Diseases

Message from the Guest Editor

Interest in rare diseases has increased significantly in recent decades, with the appearance of sensitive, high-throughput diagnostic methods along with new therapies. This topic has become the center of interest for scientists, biochemists, geneticists and, above all, pediatricians. Young researchers are welcome to present their interesting achievements, pediatricians to share their experience and insights garnered from clinical practice; all are invited to present new metabolic disorders identified by NGS. We encourage you to share the usefulness of new diagnostic methods as well as potential pitfalls in the diagnostics of IEM. In addition, welcome reports of long-term follow-up of IEM patients as well as their management and care as ensured by multidisciplinary teams of physicians and other health providers.

Guest Editor

Prof. Dr. Anna Tylki-Szymanska

Department of Pediatric Nutrition and Metabolic Diseases, The Children's Memorial Health Institute, 04 730 Warsaw, Poland

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
