Diagnosis and Management of Gastrointestinal Diseases: Using Digestive Endoscopy

Message from the Guest Editor

Digestive endoscopy is now a specialized technique needing experienced and skilled operators. Diagnosis with endoscopy includes samples with pathological examination and endoscopic visualization of images with white lumen and electronic coloration, sometimes without the need for histology. Sometimes new kinds of histology are used instead of classical pathology (confocal endomicroscopy, Raman technique, etc.). New endoscopic methods of diagnosis are becoming more and more developed and are spreading throughout the endoscopist community. These methods can change patient management and therapeutics. This Special Issue will focus on new methods of diagnosis with potential consequences for the management of patients.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
