Digital Pathology: Records of Successful Implementations

Message from the Guest Editor

Digital pathology workflow implementation is still challenging. In laboratories around the world there are growing examples of successful implementation and of pathologists acknowledging the advantages of this new model of practicing pathology. This Special Issue of *Diagnostics* is a collection of records of successful digital pathology implementation, for primary diagnosis or for secondary applications, that serve as an inspiration to readers who are still skeptical about it. These records highlight the advantages of the use of whole slide images such as sharing and image analysis, as well as the virtues of the digital workflow per se. The holistic approach of the digital workflow comprehends practical interventions in the laboratory workstations that are demonstrated in this Issue, as well as their respective monitorization, quality control, and impact on clinical practice.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
