

## Special Issue

# Lung Involvement in Extra Respiratory Diseases: The Importance of a Multidisciplinary Approach

### Message from the Guest Editors

The present issue aims to give an overview of new challenges in diagnosing and managing various clinical entities that have an impact on the lungs and to emphasize the importance of a multidisciplinary approach. This ranges from analyzing the effect of drugs on the respiratory tract (interstitial lung involvement secondary to oncologic therapy, immunosuppressive therapy, or cardiac therapy) to evaluating lung involvement in inflammatory bowel disease, neurological disease (brain–lung interaction), heart disease (the eternal dilemma: is it a cardiology or respiratory patient?), eye disease, infectious disease, endocrinological or skin disease. This issue intends to cover lung conditions in particular situations such as pregnancy (drugs in pregnancy and their impact on pulmonary involvement, sleep apnea in pregnant women), surgical patients (before and after the surgery), and patients with mental illnesses (underdiagnosed or misdiagnosed mental illnesses in chronic respiratory diseases and risk factors for respiratory disorders in chronic psychiatric patients). We look forward to your collaboration.

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
