Use of Histopathological Image Analysis in Diagnostics

Message from the Guest Editors

This Special Issue, entitled "Use of Histopathological Image Analysis in Diagnostics," delves into the cutting-edge applications of histopathological image analysis in the realm of medical diagnosis. It explores how advanced computational techniques and artificial intelligence algorithms are transforming the way pathologists interpret tissue samples. By enhancing the precision and reproducibility of diagnostic assessments, these innovations are crucial in identifying diseases such as cancer, inflammation, and infections with unprecedented accuracy. The Special Issue showcases research that underscores the importance of integrating digital pathology into routine diagnostic workflows, ultimately improving patient care and outcomes.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
