Recent Advances in the Diagnosis and Management of Gynecological Cancers

Message from the Guest Editor

Gynecological cancers, including ovarian, cervical, endometrial, vulvar, and vaginal cancers, represent a significant global health challenge. Early and accurate diagnosis, alongside advanced treatment strategies, is essential for improving patient outcomes. This Special Issue aims to explore recent advancements in the diagnosis and management of gynecological malignancies, emphasizing innovative imaging techniques, biomarker research, and molecular profiling for precise disease characterization. Additionally, it focuses on state-of-the-art treatment approaches, including minimally invasive surgery, targeted therapies, immunotherapy, and personalized treatment protocols. Special attention will be paid to emerging challenges such as resistance to therapy, quality of life considerations, and disparities in cancer care. By bringing together expert perspectives and the latest clinical and translational research, this Special Issue aims to enhance current diagnostic and therapeutic strategies, ultimately improving survival rates and patient care in gynecological oncology.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
