Special Issue

New Insights into Gastrointestinal Endoscopy

Message from the Guest Editors

Gastrointestinal endoscopy has advanced significantly in recent years, incorporating new devices, techniques, and technology, revolutionizing diagnosis and treatment. Enhanced endoscopic views and tools like digital chromoendoscopy, endo-microscopy, and Al have optimized visual diagnosis and sampling for luminal and pancreatobiliary pathologies. Therapeutic endoscopy has expanded, enabling minimally invasive endo-surgical interventions from the esophagus to the rectum, including bariatrics, full-thickness resections, and pancreatobiliary interventions in patients with altered anatomy. This Special Issue aims to summarize current diagnostic and therapeutic abilities and emerging approaches in GI endoscopy.

Guest Editors

Dr. Paraskevas Gkolfakis

- 1. Hepatogastroenterology Unit, Attikon University General Hospital, Athens, Greece
- Department of Gastroenterology, Hepatopancreatology and Digestive Oncology, Erasme University Hospital, Université Libre de Bruxelles, 1070 Brussels, Belgium

Dr. Apostolis Papaefthymiou

- 1. Gastroenterology and Hepatology Department, 404 General Military Hospital of Larissa, Larissa, Greece
- 2. Division of Gastroenterology, Cleveland Clinic, London, UK

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
