Advances in Diagnostic and Therapeutic Endoscopic Ultrasonography for Gastrointestinal Diseases

Message from the Guest Editors

Endoscopic ultrasound (EUS) is a minimally invasive procedure that is performed to assess gastrointestinal tract diseases. The use of EUS allows clinicians to obtain detailed images of the lining and walls of the digestive tract and the nearby organs such as the pancreas, liver, and lymph nodes. When combined with a therapeutic procedure, EUS allows clinicians to sample tissue for diagnosis. EUS with fine-needle aspiration or biopsy has emerged as a minimally invasive alternative to exploratory surgery. The present Special Issue aims to highlight recent advances in EUS for the management of gastrointestinal tract disorders, focusing on, but not limited to, its role in disease diagnosis, as well as novel therapeutic EUS approaches. Studies on the use of artificial intelligence in the field of endoscopy and EUS are also welcome.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
