

Special Issue

Diagnosis and Management of Diabetes Mellitus

Message from the Guest Editors

This Special Issue will focus on highlighting advanced diagnostic approaches, molecular biomarkers, integrative technologies, and improved therapeutic strategies for better control of diabetes mellitus and its complications. The integration of diagnostic precision into therapeutic decision-making is critical in addressing the complex nature of diabetes and preventing its progression to complications such as nephropathy, retinopathy, and cardiovascular disease. Submissions that explore innovative diagnostic techniques, population-specific interventions, and novel management approaches, including, but not limited to, personalized medicine, lifestyle interventions, and phytotherapeutics, are welcome. We invite all researchers in this field to submit contributions to this Special Issue in the form of systematic reviews, original research articles, or communications.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
