Recent Advancements in the Diagnosis and Prognosis of Thoracic Diseases

Message from the Guest Editor

As widely reported, tailored patient management based on advanced diagnostic techniques and knowledge of prognostic factors capable of predicting the biological behavior of the diseases are of primary importance for enhancing the quality of life and prognosis of patients with thoracic diseases. Specifically, this Special Issue aims to highlight the impact of circulating and/or tissue biomarkers for disease detection, monitoring, classification, therapy selection, and prognostication, as well as the role of imaging for diagnosis and therapy planning. New advances in each of these areas and the value of recent scientific achievements are herein collected.

Guest Editor

Dr. Marco Andolfi
Thoracic Surgery Unit, Azienda Ospedaliera of Perugia, Perugia, Italy

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q1 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
