

Special Issue

Insights into Hereditary Gastrointestinal Cancer

Message from the Guest Editor

The aim of this Special Issue entitled Insights into Hereditary Gastrointestinal Cancer is to highlight the advances in the diagnosis and management of hereditary gastrointestinal cancer syndromes including those classified as adenomatous polyposis, serrated polyposis, hamartomatous, mixed polyposis, and non-polyposis. We also invite studies on moderate-risk genes associated with gastrointestinal cancer. Original research papers, clinical cases, and reviews are welcome from experts to help inform clinical decision making and patient management.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
