

Special Issue

Explainable Machine Learning in Clinical Diagnostics

Message from the Guest Editor

The Special Issue delves into the use of Interpretable Machine Learning (IML) and Explainable Machine Learning (XML) techniques in clinical medicine. These approaches aim at enhancing the transparency and interpretability of machine learning models, which is essential for their successful implementation in healthcare settings. The articles within this Special Issue cover various aspects, such as methodologies, case studies, knowledge integration, global/local explanations, and future research directions. By improving our understanding of how these models make predictions and decisions, we can foster trust among clinicians and patients while ultimately contributing to better healthcare outcomes.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
