

Special Issue

Musculoskeletal Imaging 2025, 2nd Edition

Message from the Guest Editor

The development of new and improved imaging technologies has revolutionized our ability to diagnose pathologies more accurately and at an earlier stage, enabling clinicians to provide better care for their patients. In the past decade, musculoskeletal imaging has particularly benefited from advancements in more sophisticated imaging tools and scanners, which have allowed radiologists to narrow their differential diagnoses and play a crucial role in patient management. Exciting ongoing research on incorporating artificial intelligence into diagnostic imaging presents a promising future for improving patient care. In this Special Issue, we are pleased to present perspectives on selected topics in musculoskeletal imaging.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
