

Special Issue

Role of the Tumor Microenvironment in Early Diagnosis of Cancers

Message from the Guest Editor

This Special Issue will be dedicated to publishing original work and reviews that contribute to our understanding of the TME and its role in cancer diagnosis. Studies related to the function of the various TME components and their use in cancer diagnosis will be published. Further, studies involving the use of advanced imaging techniques, liquid biopsies, etc. will be most welcome. Studies pertaining to biomarker discovery, TME microvesicles and exosomes, and mechanism-based studies involving different TME structural components in the context of cancer diagnosis will be included in this Special Issue.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
