

Special Issue

Salivary Gland Disorders: Diagnosis, Prognosis, and Treatment

Message from the Guest Editors

New advances in the diagnosis, treatment and prognosis of salivary gland disorders have gradually gained attention in recent years. In this special issue, we welcome the up-to-date technologies in the managements of salivary gland disorders, as well as research topics including: Diagnosis of salivary gland disorders: ultrasonography, imaging, and cytological diagnosis. Salivary gland surgery and facial nerve intraoperative neuromonitoring. Electrophysiological change and injury mechanisms of facial nerves in patients after salivary gland surgery. Facial nerve function and facial expression before and after salivary gland surgery. Standardized facial grading system for surgical outcome assessments. Minimal invasive salivary gland treatment: ultrasound-guided procedures, endoscopic or robotic salivary gland surgery. Sialadenitis and sialolithiasis: autoimmune salivary gland disease under sonography, radioactive iodine sialadenitis after thyroid cancer therapy, sialendoscopic interventions etc. Latest advancements in tissue regeneration, artificial intelligence, machine learning, programming electrical stimulation, transcutaneous electrical stimulation

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
