

## Special Issue

# Current and Future Approaches to Prevention and Early Detection of Women's Cancers

### Message from the Guest Editors

The focus of this Special Issue is on the current advances in our understanding of women's cancers. We welcome submissions discussing updates to the process of early detection and preventative approaches that have either been adopted (such as HPV vaccination for cervical cancer) or are being explored at present (such as prophylactic salpingectomy for ovarian cancer, the impact of obesity and the potential of metformin in prevention of endometrial cancer). The issue will bring together articles about the advances in our understanding of genetic predisposition to breast and ovarian cancer to inform future risk stratification strategies. In view of the recent introduction of the practice of assessing all endometrial cancers for the presence of Lynch Syndrome, we welcome a review of the literature and a discussion about why this approach is important. A review of the rarer cancers, such as vulval cancer, will complement the content. The Special Issue will provide an insight into the current strategies being explored or developed that may potentially be integrated into future management strategies.

---

### Guest Editors

Dr. Aleksandra Gentry-Maharaj

1. MRC Clinical Trials Unit at UCL, Institute of Clinical Trials & Methodology, London WC1V 6LJ, UK
2. Department of Women's Cancer, Elizabeth Garrett Anderson Institute for Women's Health, University College London, London, UK

Dr. Aarti Sharma

Cardiff and Vale University Health Board, University Hospital of Wales, Cardiff CF14 4XW, UK

## About the Journal

### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
