Artificial Intelligence in Cardiology Diagnosis

Message from the Guest Editor

The use of artificial intelligence to improve cardiovascular patient care is rapidly evolving, providing clinicians with the tools they need to more accurately diagnose and treat patients. The aim of this Special Issue is to highlight the promising bridge between artificial intelligence and cardiac diagnosis.

Contributions on the utility of artificial intelligence in multimodality cardiac imaging, including but not limited to the fields of echocardiography, nuclear cardiology, cardiac computed tomography, and cardiac magnetic resonance imaging, are welcome. In addition, wearable sensing devices will be discussed and novel applications of artificial intelligence in diagnosing cardiac conditions will be presented.

Guest Editor

Dr. Mark G. Rabbat

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
