Imaging in Hematological Diseases: Diagnosis, Management and Prognosis

Message from the Guest Editor

Hematological diseases encompass a wide range of conditions that can significantly impact an individual's health and quality of life. The accurate diagnosis, effective management, and precise prognosis of these disorders and associated complications are crucial to improving clinical care. This Special Issue aims to collect new advances in the field of imaging, focusing on its pivotal role in the diagnosis, management, and prognosis of hematological conditions, both malignant and non-malignant. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) diagnostic imaging techniques, imaging for treatment guidance and monitoring, imaging for long-term follow-up, and prognostic imaging biomarkers in hematological diseases.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.6 days after submission; acceptance to publication is undertaken in 2.7 days (median values for papers published in this journal in the second half of 2025).
