Neuropathology, Neuroimaging and Biomarkers in Neurological Disease

Message from the Guest Editor

Neurological diseases are a major public health concern, affecting millions of people worldwide. The early detection and accurate diagnosis of these diseases are crucial for effective treatment and management. In recent years, there has been significant progress in the development of neuropathology, neuroimaging and biomarkers, which hold great promise in facilitating the early detection and diagnosis of neurological diseases. The rapid progress in the field of neuropathology, neuroimaging, and biomarkers holds great promise in the early detection and accurate diagnosis of neurological diseases. The integration of these technologies into clinical practice has the potential to greatly improve the management and treatment of these debilitating conditions, ultimately leading to better outcomes for the affected individuals and their families. In conclusion, this Special Issue dedicated to neuropathology, neuroimaging, and biomarkers in neurological disease would be an important resource for researchers, clinicians, and other healthcare professionals, and would help to advance our understanding of these debilitating conditions and improve patient outcomes.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
