# Eosinophilic Gastrointestinal Disorders: Advances in Diagnosis and Management

#### Message from the Guest Editors

Eosinophilic gastrointestinal disorders are a group of disorders characterized by the pathologic eosinophilic infiltration of various organs of the gastrointestinal tract, the esophagus, stomach, small intestine, and the colon. Pathological eosinophilic infiltration may cause symptoms such as dysphagia, food impaction, dyspepsia, abdominal pain, diarrhea, heartburn, abdominal pain, and vomiting in children. These disorders are considered immune-mediated chronic inflammatory disorders with strong links to food allergen triggers. Recent years have witnessed significant advances in basic science research, clinical diagnosis, and the management of eosinophilic gastrointestinal disorders. Treatment strategies focus on either medical or dietary therapy. The main aim of this Special Issue is to shed light on the clinical presentation, pathophysiology, diagnosis, and treatment of these increasingly recognized disorders.

### **About the Journal**

#### Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

#### Editor-in-Chief

#### Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

#### **Author Benefits**

#### **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

#### **Journal Rank:**

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

#### **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
