Rheumatic Diseases: Diagnosis and Management

Message from the Guest Editor

Rheumatic disease treatment paradigms are becoming increasingly complex. Recognition of new autoimmune and autoinflammatory conditions, side effects related to immunotherapy, and complications arising from post-pandemic-related symptoms coupled with the burgeoning landscape of biologic therapies together with various immunomodulators targeting alternative inflammatory pathways has enabled for a plethora of new approaches targeting many longstanding conditions. Our increased knowledge base gives afflicted individuals more options; however, it also increases the complexity of treatment decisions for practitioners. The goal of this Special Issue is to focus on selected areas in rheumatology and provide evidence-based approaches to diagnosis and/or management for these conditions.

Guest Editor

Prof. Dr. Kevin V. Hackshaw

Department of Internal Medicine, Division of Rheumatology, Dell Medical School, The University of Texas, 1601 Trinity St., Austin, TX 78712, USA

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 20.3 days after submission; acceptance to publication is undertaken in 2.5 days (median values for papers published in this journal in the second half of 2024).
