Fetal Growth Restriction (FGR): Diagnosis and Management

Message from the Guest Editor

Fetal growth restriction (FGR) can be caused by a wide variety of factors, including placental insufficiency, infection, chromosomal abnormalities, genetic predisposition, and metabolic abnormalities. Prenatal diagnostic tools include ultrasonography, serological tests, and chorionic and amniotic fluid tests. Ethical considerations must also be taken into account, such as when and how to provide explanations to the family. Determining the timing and mode of delivery, and on what basis, represents an even greater challenge. We invite papers on this topic from a wide range of perspectives, including long-term prognostic studies and treatment strategies.

Guest Editor

Prof. Dr. Daisuke Tachibana

Department of Obstetrics and Gynecology, Graduate School of Medicine, Osaka Metropolitan University, Osaka, Japan

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
