

Special Issue

Infectious Disease in Pregnancy

Message from the Guest Editors

The Special Issue “Infectious Diseases in Pregnancy” will collect articles related to the various aspects of pregnancies affected by microbiological aggressions. Having a particular immunological status, the pregnant women could develop unusual reactions to different infections, and the consequences could be difficult to predict. Moreover, fetus protection depends greatly on the maternal–fetal barrier represented by placenta and, therefore, congenital intrauterine infections are mainly defined as risks that are difficult to diagnose prenatally.

The outbreak of the COVID 19 pandemic as well as other viral or microbial infections provide interesting aspects regarding epidemiological and risk factors, immunological aspects, difficulties of diagnostic and management options. This Special Issue will therefore focus on the pathogenesis and management of both maternal infections and fetal intrauterine infections.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer

Department of Clinical Physiology, Nuclear Medicine & PET National University Hospital, Rigshospitalet, University of Copenhagen, Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
