

Special Issue

Diagnostic Infectious Disease and Microbiology

Message from the Guest Editor

Infectious diseases and clinical microbiology are fascinating and rapidly changing fields in medicine, with ongoing complex challenges. In recent years, a real revolution in infection diagnosis has occurred thanks to the incorporation of a wide arsenal of techniques based on various technologies, such as molecular methods, immunoassays, mass spectrometry, FISH, RMN, and so on. Diagnostic stewardship is essential for the optimization of these techniques and to accomplish their maximum efficiency and profitability. This Special Issue seeks manuscript submissions to extend the scientific knowledge and to evaluate, compare, and review the state of the art in methods and algorithms for the diagnosis of different infectious diseases, such as:

- Bone and joint infections;
- Blood stream infections;
- Central nervous system infections;
- Cardiovascular system infections;
- Gastrointestinal infections;
- Lower respiratory system infection;
- Sexually transmitted infections;
- Surgical site infections;
- Skin and soft tissue infection;
- Upper respiratory system infections;
- Urinary tract infections.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
