

Special Issue

Advances in Dental Imaging, Oral Diagnosis, and Forensic Dentistry

Message from the Guest Editors

Technological developments in recent decades have given a new impulse to dental science. The development of more sophisticated dental imaging techniques has offered more options concerning patient evaluation and treatment planning.

Advances in dental imaging, oral diagnosis, and forensic dentistry encompass various innovations and techniques aimed at improving the accuracy of diagnoses and the efficacy of treatments within dental practice and forensic investigations.

The current Special Issue aims to present the new trends in dental imaging, oral diagnosis, and forensic dentistry and highlight the emerging applications which contribute to the most effective treatment. Topics of interest include, but are not limited to, the following:

- Automated segmentation;
- Neural networks in dentistry;
- Digital intraoral scanning;
- Radiographic/surgical guides;
- Virtual reality in dental imaging;
- 3D surgical stimulation;
- 3D facial reconstruction;
- Forensic odontology;
- Forensic dentistry.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
