

Topical Collection

Artificial Intelligence in Medical Diagnosis and Prognosis

Message from the Collection Editor

This is a collection of open access high-quality papers published by Editorial Board Members, or those who were invited by the Editorial Office. This Topical Collection aims to publish high-quality articles within the field of artificial intelligence in medical diagnosis and prognosis. The papers should be long research papers (or review papers) with full and detailed summaries of the author's own work performed so far. Please note that the selected full papers will still be subjected to thorough and rigorous peer review. All papers will be published on an ongoing basis.
