Diagnosis and Management in Otolaryngology 2025

Message from the Guest Editor

Recently, the field of otolaryngology has expanded rapidly. For example, olfactory and gustatory dysfunction has gained considerable attention in the era of COVID-19 outbreak. Biologics have been introduced to treat type 2 chronic rhinosinusitis with nasal polyps. The diagnosis and management of Eustachian tube dysfunction have also been widely investigated. Robotic surgery has become a new tool used to treat head and neck disorders. Despite the rapid progress of medicine, some disorders remain complex and have a significant impact on the global economy in the modern era. Therefore, the early detection and proper management of ear, nose, and throat disorders deserve further attention. Advances in timely diagnosis and proper management would provide practical information about precise prognosis and likely responses to medical or surgical therapy and are therefore pivotal.

About the Journal

Message from the Editor-in-Chief

You are cordially invited to submit research articles, short communications, comprehensive reviews, case reports or interesting images for consideration and publication in *Diagnostics* (ISSN 2075-4418). *Diagnostics* is published in open access format – research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited and free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Andreas Kjaer
Department of Clinical Physiology, Nuclear Medicine & PET National
University Hospital, Rigshospitalet, University of Copenhagen,
Blegdamsvej 9, DK-2100 Copenhagen, Denmark

Author Benefits

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, Inspec, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (Internal Medicine)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
